

COMPANY OVERVIEW

Brixx Space is a professional construction consultation and project advisory firm backed by 30+ years of industry expertise. Led by Mr A. Ulagu Lakshmanan, Director, the company is built on strong foundations of civil engineering, road construction, and infrastructure development across Tamil Nadu.

Based in Krishnapuram, Tirunelveli, Brixx Space provides end-to-end construction consulting, technical planning, design coordination, and execution guidance for residential, commercial, and infrastructure projects.

Technical operations are led by Er. Loknath S, M.E (Structural Engineering), who ensures client ideas are transformed into efficient and buildable designs through strong coordination, documentation, and value engineering.

Brixx Space helps clients reduce risk, control costs, and build right—before construction begins.

ABOUT

DIRECTOR

Trusted civil engineer and construction contractor in Tamil Nadu, with over 35 years of experience in road construction, RCC works, and large-scale infrastructure projects. Serving major government departments, the company is recognised for its high-quality construction, advanced machinery, stringent safety standards, and timely project delivery across multiple districts.

Er LOKNATH S M.E

DESIGN & TECHNICAL LEAD

Structural engineering professional with strong expertise in civil construction, design, and project execution. Holding an M.E. in Structural Engineering from Anna University and certified in advanced RCC design, he brings technical precision and modern engineering insight to every project. With hands-on experience as a Project Manager and a proven research background in materials and durability studies, he delivers solutions that blend practicality, innovation, and structural reliability. His work reflects a commitment to quality, accuracy, and engineering excellence across all construction and consultancy services.

OUR CAPABILITIES

We have the capacity to mobilise skilled manpower, advanced construction equipment, and resources for projects of any scale and complexity. Our in-house fleet includes:

- TATA Hitachi Excavators
- JCBs
- Bulldozers
- Vibratory & Road Rollers
- Hot Mix Plant (for Bituminous Road Works)
- Paver Finishers
- Specialized Machinery for Civil & Earthwork Projects

Supported by a team of experienced engineers and technicians, we ensure high-quality project execution with strict adherence to safety and timelines.

CORE SERVICES

BRIXX SPACE provides comprehensive expertise across all critical construction phases, giving clients assurance for confident, informed decisions.

Key Phases Covered

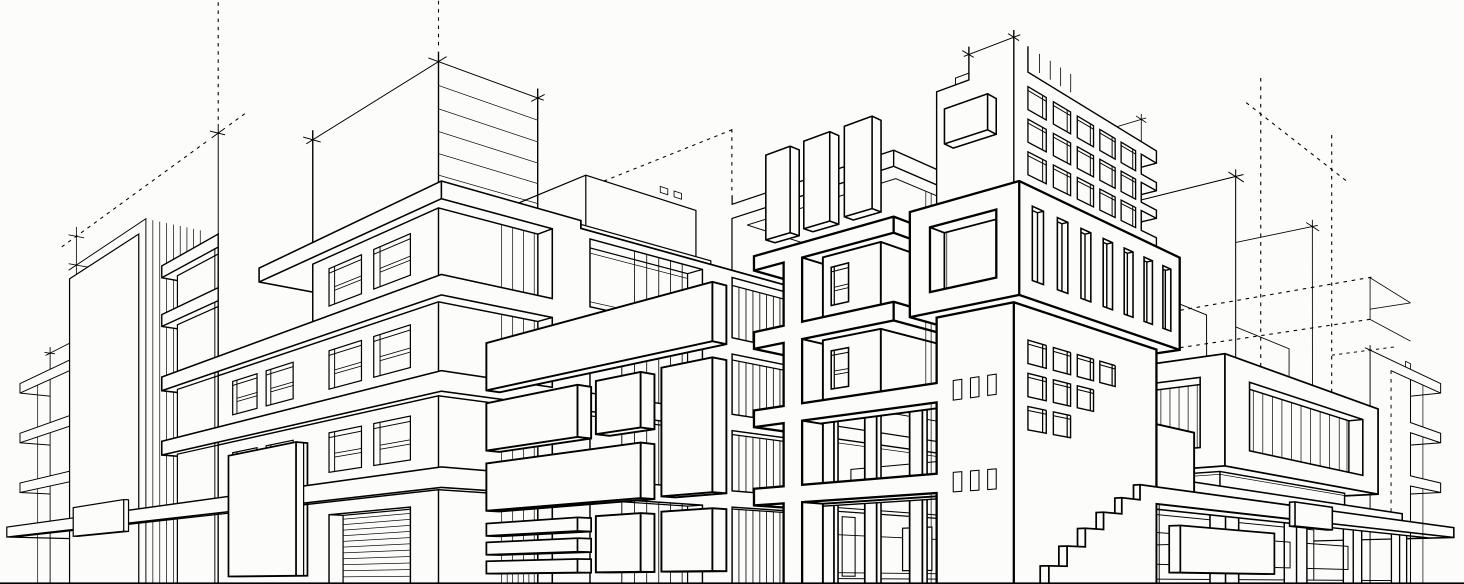

- **Design Coordination:** Transforming client vision into buildable, compliant designs.
- **Budget Management:** Implementing automated cost control, BOQ vs. actual spend tracking, and value engineering.
- **Scheduling:** Managing project timelines, milestones, and ensuring smooth execution from planning to handover.
- **Contract Administration:** Overseeing all contract documentation and vendor coordination.
- **Site Supervision:** Detailed monitoring, including daily reports, safety logs, and vendor check-ins.
